

WORKING FOR CALIFORNIA'S FUTURE, TODAY.

At the Public Policy Institute of California, we believe in the power of good information to build a brighter future for our state.

After years of economic turmoil, California has entered a period of reform and reinvention. Many of California's new major initiatives—from education to corrections to climate change—are shaping the future of the state. They are also demonstrating new ways to handle policy challenges faced by the entire nation.

At PPIC, we analyze the impact of these changes and explore steps the state can take to meet its critical challenges. Our nonpartisan, high-quality, objective research provides key facts and offers timely, practical solutions to the issues most affecting the lives of all Californians.

PPIC HELPS THE STATE FIND SYSTEMATIC AND SUSTAINABLE RESPONSES TO A RANGE OF POLICY CHALLENGES
