

Water and the Future of the San Joaquin Valley

Technical Appendices

Click on the titles below for each individual appendix.

[Appendix A. Updated Assessment of the San Joaquin Valley's Water Balance](#)

Alvar Escriva-Bou

[Appendix B. Options to Improve Water Availability in the San Joaquin Valley](#)

Alvar Escriva-Bou

[Appendix C. Potential Economic Impacts of Reducing Water Use on San Joaquin Valley Agriculture](#)

Josué Medellín-Azuara, Alvar Escriva-Bou, Jelena Jezdimirovic

[Appendix D. Optimizing Supply and Demand Management Actions to Bring Groundwater Basins into Balance](#)

Alvar Escriva-Bou

[Appendix E. Supplemental Information on Water Quality and Land Use](#)

Alvar Escriva-Bou, Jelena Jezdimirovic, Nathaniel Seavy

[Appendix F. Leveraging USDA Programs to Promote Groundwater Sustainability in the San Joaquin Valley](#)

Jelena Jezdimirovic, Ellen Hanak

Supported with funding from the S. D. Bechtel, Jr. Foundation, the TomKat Foundation, the US Environmental Protection Agency, the US Department of Agriculture, and the Water Foundation

This publication was developed with partial support from the US Department of Agriculture under OCE Cooperative Agreement number 58-011-17-004, Leveraging USDA programs to support sustainable groundwater management in the San Joaquin Valley, for the detailed analysis of USDA programs provided in [Technical Appendix F](#). The views expressed in this document are solely those of the authors and do not necessarily reflect those of the Department.

This publication was developed with partial support from Assistance Agreement No.83586701 awarded by the US Environmental Protection Agency to the Public Policy Institute of California. It has not been formally reviewed by EPA. The views expressed in this document are solely those of the authors and do not necessarily reflect those of the agency. EPA does not endorse any products or commercial services mentioned in this publication.
