

Californians and Their Government—February 2024

Full Crosstabs – Likely Voters Only

Methodology Note:

Findings are based on a survey of 1,628 California adult residents, conducted online using the Ipsos KnowledgePanel. Interviews were conducted in English and Spanish, according to the respondents' preferences. The median time to complete the survey was 20 minutes. Interviewing took place from February 6-13, 2024.

These crosstabs are based on a subgroup of 1,075 likely voters. The sampling error, taking design effects from weighting into consideration, is ± 3.9 percent at the 95 percent confidence level for the unweighted sample of 1,075 likely voters. The sampling error for unweighted likely voter subgroups is larger. Sampling error is only one type of error to which surveys are subject. Results may also be affected by factors such as question wording, question order, and survey timing.

If you have any questions or require additional information regarding this survey, please contact surveys@ppic.org

Q34. As part of the 2024 budget, Governor Newsom has proposed to use \$13.1 billion from the state's reserves, mostly from the Budget Stabilization Account or "Rainy Day Fund," to partially address the current budget. This means less funding will be available to backfill spending if revenues continue to decrease. However, it also means if reserves are not used, more budget cuts are needed. In general, do you think using state reserve money is a good idea or a bad idea?	good idea	49%	36%	46%	48%	43%	48%	45%	45%	41%	48%	46%	48%
