

Californians and Education—April 2024

Full Crosstabs – Likely Voters Only

Methodology Note:

Findings are based on a survey of 1,605 California adult residents, conducted online using the Ipsos KnowledgePanel. Interviews were conducted in English and Spanish, according to the respondents' preferences. The median time to complete the survey was 19 minutes. Interviewing took place from March 19-25, 2024.

These crosstabs are based on a subgroup of 1,089 likely voters. The sampling error, taking design effects from weighting into consideration, is ± 3.9 percent at the 95 percent confidence level for the unweighted sample of 1,089 likely voters. The sampling error for unweighted likely voter subgroups is larger. Sampling error is only one type of error to which surveys are subject. Results may also be affected by factors such as question wording, question order, and survey timing.

<p>Q31. Proposition 39 is the 2000 ballot measure passed by voters that authorized local school districts to issue bonds for construction, rehabilitation, or replacement of school facilities if passed by 55 percent of local voters. <p>Q67a. Proposition 14 is the 2010 ballot measure passed by voters that changed California's state primary elections from a partially closed system to a top-two primary system in which voters now cast primary election ballots for any candidate-regardless of party-and the two candidates receiving the most votes-regardless of party-advance to the general election. <p>Q67a. Proposition 14 is the 2010 ballot measure passed by voters that changed California's state primary elections from a partially closed system to a top-two primary system in which voters now cast primary election ballots for any candidate-regardless of party-and the two candidates receiving the most votes-regardless of party-advance to the general election.
