

Californians and the Environment—July 2024

Full Crosstabs – Likely Voters Only

Methodology Note:

Findings are based on a survey of 1,648 California adult residents, conducted online using the Ipsos KnowledgePanel. Interviews were conducted in English and Spanish according to the respondents' preferences. The median time to complete the survey was 18.9 minutes. Interviewing took place from June 24-July 2, 2024.

These crosstabs are based on a subgroup of 1,261 likely voters. The sampling error, taking design effects from weighting into consideration, is ± 3.7 percent at the 95 percent confidence level for the unweighted sample of 1,261 likely voters. The sampling error for unweighted likely voter subgroups is larger. Sampling error is only one type of error to which surveys are subject. Results may also be affected by factors such as question wording, question order, and survey timing.

If you have any questions or require additional information regarding this survey, please contact surveys@ppic.org

Q77. Do you favor or oppose having a citizens' initiative review commission where a representative group of about 24 citizens would be randomly chosen and invited by state government officials to participate in several public meetings, and given the task of choosing the citizens' initiatives to review, holding public hearings in which both yes and no campaigns, along with policy experts, deliberate on the initiatives' pros and cons, and then make ballot recommendations in the Secretary of State's voter information guide?	Favor	57%	56%	54%	56%	58%	50%	53%	58%	54%	67%	50%	54%	60%	53%
