

## Source List for *Priorities for California's Water: Responding to the Changing Climate*

This document provides background references for the PPIC policy brief, *Priorities for California's Water: Responding to the Changing Climate* (November 2021). If you have any questions about the information in the report or these sources, contact us at [water@ppic.org](mailto:water@ppic.org).

### Introduction

- **The IPCC sixth assessment report:** Masson-Delmotte, V., et al. 2021. *Climate Change 2021: The Physical Science Basis. Contribution of Working Group I to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change*. IPCC.
- **Rising temperatures make our winters shorter and our droughts more intense:** Mount, Jeff et al. 2018. *Managing Drought in a Changing Climate: Four Essential Reforms*. PPIC.

### Shifting Currents

- **Climate change is intensifying drought:**
  - Pottinger, Lori. 2021. "Droughts Aren't Just About Water Anymore." *PPIC Blog*.
  - Mount, Jeff, and Michael Dettinger. 2020. "California's 21st Century Megadrought." *PPIC Blog*.
- **Snow droughts throw a wrench into our water management systems:** Mount, Jeff. 2016. "California's Snow Drought." *PPIC Blog*.
- **The past two years saw poor snowpack:** Carlowicz, Michael. 2021. "Sierra Snowbank Short on Funds." *Earth Observatory*.
- **Water year 2021 snowpack melted year and yielded little runoff:** NIDIS. 2021. "Water Year 2021 Snow Drought Conditions Summary and Impacts in the West."
- **Santa Clara County's water shortage emergency:** Rust, Susanne. 2021. "A problem Silicon Valley can't solve: Drought, quake risk." *Los Angeles Times*.
- **The first groundwater sustainability plans have some serious gaps:** Hanak, Ellen, and Jelena Jezdimirovic. 2020. "Commentary: How to Address Groundwater Planning Gaps." *PPIC Blog*.
- **The SGMA implementation process has not adequately included those threatened by drying wells:** Chappelle, Caitrin. 2020. "How Water Justice Groups View Groundwater Sustainability Planning." *PPIC Blog*.
- **This year continued the trend of ever-larger and more damaging wildfires:** Taylor, Derrick B. 2021. "In California, a heat advisory and a wildfire season that is 'far from over.'" *New York Times*.
- **Plans to improve forest health are advancing and more money has been allocated:** McCann, H. 2021. "State makes progress on wildfire and forest health policy." *PPIC Blog*.
- **But progress is not keeping pace with increasing threats:** McCann, H. and Xiong, M. 2021. "Accounting for a Decade of Headwater Forest Management." *PPIC Blog*.
- **New state funding for unmet water needs:**
  - Office of Governor Gavin Newsom. 2021. "California State Budget 2021-22."
  - Office of Governor Gavin Newsom. 2021. "Budget Addendum."
  - Legislative Analyst Office. 2021. "The 2021-2022 Budget: Overview of the Spending Plan."
- **A boost in federal water infrastructure spending is under consideration:** Cochrane, Emily. 2021. "Senate Passes \$1 Trillion Infrastructure Bill, Handing Biden a Bipartisan Win." *New York Times*.
- **Building climate resilience will require upgrades to our water grid:** Escriva-Bou, Alvar, et al. 2019. *California's Water Grid*. PPIC.

## Managing Groundwater

- **Groundwater provides about 40 percent of water used by farms and cities:** *California Department of Water Resources. "Water Basics: Groundwater."*
- **Increased groundwater pumping could cause water shortages for small communities:** Escrivá-Bou, Alvar, and Rich Pauloo. 2021. "How better data can help California avoid a drinking water crisis." *CalMatters*.
- **Groundwater dependent freshwater ecosystems vulnerabilities to drought:** Pottinger, Lori. 2018. "Ecosystems need groundwater too." *PPIC Blog*.
- **Land subsidence risk from lowering water table:** Escrivá-Bou, Alvar, et al. 2020. "Sinking Lands, Damaged Infrastructure: Will Better Groundwater Management End Subsidence?" *PPIC Blog*.
- **Few GSPs address how they will bring basins back into balance or address subsequent impacts:** Hanak, Ellen et al. 2020. "A Review of Groundwater Sustainability Plans in the San Joaquin Valley." Public comments submitted to the California Department of Water Resources.
- **Local pumping restrictions and mitigation plans can minimize the negative impacts of increased groundwater pumping:** Jezdimirovic, Jelena, et al. 2020. "Will Groundwater Sustainability Plans End the Problem of Dry Drinking Water Wells?" *PPIC Blog*.
- **Reducing agricultural water use while protecting regional economies requires more upfront work:** Ayres, Andrew, et al. 2021. *Policy Brief: Improving California's Water Market*. PPIC.
- **Recharging basins during storms is one way to reduce overdraft:** Jezdimirovic, Jelena, et al. 2020. "What's the Plan to End Groundwater Overdraft in the San Joaquin Valley?" *PPIC Blog*.
- **California's water infrastructure is not equipped to take advantage of water available for recharge:** Hanak, Ellen et al. 2018. *Replenishing Groundwater in the San Joaquin Valley*. PPIC.
- **Coordinating investments regionally can maximize benefits and reduce costs:** Escrivá-Bou, Alvar et al. 2020. *Water Partnerships between Cities and Farms in Southern California and the San Joaquin Valley*. PPIC.

## Safe and Affordable Water

- **Small groundwater-dependent systems in low-income communities—disproportionately communities of color—are at high risk for water quality and supply shortfalls:**
  - Chappelle, Caitrin, and Lori Pottinger. 2020. "Recession Safety Net Needed for State's Small Water Systems." *PPIC Blog*.
  - California Urban Water Agencies and Pacific Institute. 2020. "Solutions for Underperforming Drinking Water Systems in California." Water Research Foundation.
- **The state has completed a comprehensive assessment of water systems that are out of compliance or at risk of violating drinking water standards:** State Water Board. 2021. "Drinking Water Needs Assessment."
- **The state has begun work to connect tribal communities to the SAFER program:** Collins, Joy, and Caitrin Chappelle. 2021. "Ensuring Safe Drinking Water for California's Native American Communities." *PPIC Blog*.
- **The state is investing \$1.3 billion in water and wastewater systems in low-income communities:** S.B. 129 Budget Act of 2021 (Sec 127), 2021 Skinner. (California 2021).
- **As of late September, 700 domestic well users had lost water access due to the drought:** Department of Water Resources. 2021. "Household Water Supply Shortage Reporting System."
- **Hundreds of additional well users are at risk:** Escrivá-Bou, Alvar, and Rich Pauloo. 2021. "How better data can help California avoid a drinking water crisis." *CalMatters*.
- **The state has allocated \$200 million for drinking water drought emergencies in small and low-income communities:** Department of Water Resources. 2021. "Guidelines for Small Community Drought Relief Program."
- **The budget will put an additional \$100 million for urban communities:** A.B. 148 Public resources, 2021 Committee on Budget and Fiscal Review. (California 2021).
- **Water affordability became an urgent concern during the pandemic, disproportionately affecting people of color:** State Water Board. 2021. "Drinking Water COVID-19 Financial Impacts Survey."
- **The state has allocated \$1 billion of federal funds to cover unpaid water bills:** Botts, Jackie. 2021. "Unpaid utility bills? California will pay off \$2 billion to avoid shutoffs." *CalMatters*.
- **Water costs are rising:** Chappelle, Caitrin, and Ellen Hanak. 2021. *Water Affordability*. PPIC.
- **Propositions 218 limits options for publicly owned utilities to fund lifeline rates for water:** Hanak, Ellen et al. 2018. *California's Water: Paying for Water*. PPIC.
- **Temporary federal assistance program, LIHWAP, launched in June 2021:** Mackey, Rachel, and Nicolette Gerald. 2021. "HHS launches new Low-Income Household Water Assistance Program (LIHWAP)." *NACo Blog*.
- **Local agencies have funded most water system upgrades:** Chappelle, Caitrin et al. 2021. *Paying for California's Water System*. PPIC. For historical discussion, see also Hanak et al. 2014. *Paying for Water in California*, PPIC.

## Freshwater Ecosystems

- **Summer water availability was over-estimated:** Abatzoglou, John et al. 2021. “California’s Missing Forecast Flows in Spring 2021 – Challenges for seasonal flow forecasting.” *California WaterBlog*.
- **Near-term extinctions are likely if the drought persists:** Mount, Jeff, et al. 2019. *A Path Forward for California’s Freshwater Ecosystems*. PPIC.
- **Both surface water and groundwater storage can help restore key ecosystem functions:** Grantham, Ted, and Jeff Mount. 2020. “Commentary: New Approach Needed to Protect Health of California’s Rivers.” *PPIC Blog*.
- **A functional flows approach to managing water is most effective when paired with investments in physical habitat:** Grantham, Ted, et al. 2020. *Making the Most of Water for the Environment: A Functional Flows Approach for California’s Rivers*. PPIC.
- **Ecosystem water budgets can help better manage ecosystems during drought:** Mount, Jeff, et al. 2017. *Managing California’s Freshwater Ecosystems: Lessons from the 2012-16 Drought*. PPIC.
- **Ecosystem-based management would improve watershed health:** Mount, Jeff, et al. 2019. *A Path Forward for California’s Freshwater Ecosystems*. PPIC.
- **Expanding nature-based solutions can help meet climate change and biodiversity goals:** California Natural Resources Agency. “Expanding Nature-Based Solutions.”
- **‘30 by 30’ land and coastal waters conservation pledge:** Office of Governor Gavin Newsom. 2020. “Governor Newsom Launches Innovative Strategies to Use California Land to Fight Climate Change, Conserve Biodiversity and Boost Climate Resilience.”
- **The state’s Cutting the Green Tape Initiative:** California Natural Resources Agency. “Cutting the Green Tape.”
- **New legislation exempts restoration projects from CEQA: S.B. 155 Public resources trailer bill, 2021 Committee on Budget and Fiscal Review, 2021. (California 2021).**
- **Smarter permitting is necessary to speed the pace of ecosystem restoration:** Grenier, Letitia, et al. 2021. *Advancing Ecosystem Restoration with Smarter Permitting*. PPIC.

## Headwater Forests and Fires

- **Decades of poor forest management has made wildfires more extreme:** McCann, Henry. 2020. *The Benefits of Headwater Forest Management*. PPIC.
- **New state funding is supporting an array of tools for combating wildfire:**
  - McCann, Henry. 2020. “Governor’s Budget Addresses Growing Wildfire Risks.” *PPIC Blog*.
  - Legislative Analyst’s Office. 2021. “Wildfire Prevention and Forest Resiliency.”
- **The Wildfire and Forest Resilience Action Plan outlines the state’s priorities for forest management over the next decade:** Governor’s Forest Management Task Force. 2021. “California’s Wildfire and Forest Resilience Action Plan.”
- **Forest management is not scaling fast enough:** McCann, Henry and Xiong, Mingfei. 2021. “Accounting for a Decade of Headwater Forest Management.” *PPIC Blog*.
- **There is untapped potential for water utilities to help manage headwater forests:** McCann, Henry, and Van Butsic. 2021. “How Water Agencies Could Catalyze Headwater Forest Management.” *PPIC Blog*.
- **Fire scientists have pushed back on US Forest Service’s policy shift to halt controlled burns:**
  - Alexander, Kurtis. 2021. “Scientists Petition U.S. Forest Service to drop new fire-suppression policy.” *San Francisco Chronicle*.
  - Sommer, Lauren. 2021. “With Extreme Fires Burning, Forest Service Stops ‘Good Fires’ Too.” *NPR*.
- **New funding mechanisms are necessary to provide more reliable support to forest management projects:** McCann, Henry. 2020. “Paying for Forest Health Projects.” *PPIC Blog*.
- **Developing technical capabilities and personnel for forest management can boost rural economies:**
  - McCann, Henry, and Van Butsic. 2020. “Commentary: Improving Forest Health Can Build Jobs, Economies in Rural California.” *PPIC Blog*.
  - McCann, Henry, and Van Butsic. 2021. “How Wood Products Could Lower the Cost of Forest Management.” *PPIC Blog*.
- **Regional planning and expanding federal, state, and local partnerships are key to long-term forest stewardship:** McCann, Henry, and Van Butsic. 2021. “Building Capacity for Long-term Forest Stewardship.” *PPIC Blog*.
- **California lacks comprehensive accounting of how forests are being managed:** McCann, Henry, and Mingfei Xiong. 2021. “Accounting for a Decade of Headwater Forest Management.” *PPIC Blog*.
- **Forest management partnerships with tribes need more support:** McCann, Henry. 2021. “Using Fire for Good on Tribal Land.” *PPIC Blog*.

## Thinking Differently about Managing Risk

- **The state’s water resilience portfolio prepares the water system for climate change:** California Natural Resources Agency. 2020. “[Water Resilience Portfolio](#).”
- **California needs to invest in water storage and conveyance improvements:** Escrive-Bou, Alvar, et al. 2019. *California’s Water Grid*. PPIC.
- **New advances in storm forecasting can maximize water capture:** Pottinger, Lori. 2021. “[Operating Dams to Better Manage Big Storms Can Build Resiliency to Climate Extremes](#).” *PPIC Blog*.
- **Better accounting, forecasting, and monitoring will improve water management:** Babbitt, Christina, and Tara Moran. 2021. “[3 ways this accounting platform will help California groundwater agencies transition to sustainable supplies](#).” *EDF Blog*.
- **Advanced imaging can help identify the best places for recharging aquifers:** Garthwaite, Josie. 2021. “[Stanford scientists offer a new way to identify 'sweet spots' for managed aquifer recharge](#).” *Stanford News*.
- **Multipronged solutions will be needed to provide safe drinking water to Californians:** Chappelle, Caitrin. 2021. “[A Look at California’s Safe and Affordable Drinking Water Gaps](#).” *PPIC Blog*.
- **Reducing demand for water while minimizing economic and social costs is essential:**
  - Hanak, Ellen, and Jeff Mount. 2019. *Water Use in California*. PPIC.
  - Hanak et al. 2021. *California’s Water Market*. PPIC.
  - Escrive-Bou et al. 2021. *Groundwater Recharge*. PPIC.
- **Constitutional rules on local funding make it difficult to fund affordability programs:** Hanak, Ellen et al. 2018. *California’s Water: Paying for Water*. PPIC.
- **While water bond funding could fill some funding gaps, expanding taxes and fees may also be necessary:** Rosser, Annabelle, and Caitrin Chappelle. 2021. “[How Water Bonds Plug Spending Holes](#).” *PPIC Blog*
