

Californians and Their Government December 2023

Time Trends – All Respondents

Methodology Note:

Findings for December 2023 are based on a survey of 1,660 California adult residents, conducted online using the Ipsos KnowledgePanel. Interviews were conducted in English and Spanish, according to the respondents' preferences. The median time to complete the survey was 22 minutes. Interviewing took place from November 9–16, 2023.

The sampling error for December 2023, taking design effects from weighting into consideration, is ± 3.2 percent at the 95 percent confidence level for the total unweighted sample of 1,660 adults. This means that 95 times out of 100, the results will be within 3.2 percentage points of what they would be if all adults in California were interviewed. Sampling error is only one type of error to which surveys are subject. Results may also be affected by factors such as question wording, question order, and survey timing.

If you have any questions or require additional information regarding this survey, please contact surveys@ppic.org

Note:

For questions related to the 2024 election (Q8–Q15) and the referendum process (Q16–18), please refer to the Public Time Trends–Likely Voters document.
